DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Shakula (Registration Number: 40808) on 01/03/2005.

Claim 24, line 18 amended as follows:

" ~~ti is input to the decision~~ " has been deleted and -- timing input of the decision -- has been inserted.

Allowable Subject Matter

2. Claims 8, 10-13, 15-22, 24, 25 renumbered as 1-15 respectively are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art search did not disclose the separation of an optical packet into a header and a payload wherein the header is comprises of two sections, a first section containing timing clocks and a second part containing routing information, with the packet payload at a higher data rate than the packet header. Patent 5831752, Cotter discloses an optical packet processing system where a marker pulse is incorporated within the packet. The marker pulse is subsequently regenerated into a series of clock pulses to synchronize the data coming into an optical switch. Patent 6694098, Warbrick teaches a method of reading data from an optical packet header. The packet carries a header and a payload wherein the payload is transmitted at a higher rate. The header is identified by low modulation depth, but does not carry an explicit section containing timing clocks. Patent 5841560, Prucnal teaches an optical pulse train compression system. The clocking train is generated at successively higher rates by staging with each stage adding new clock pulses to the train.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John L Shew whose telephone number is 571-272-3137. The examiner can normally be reached on 8:30am - 5:00pm.
